Department of Forestry, Fisheries and the Environment (DFFE): Internships 2024 New Hiring

Description

Are you passionate about environmental conservation and sustainable resource management? The Department of Forestry, Fisheries, and the Environment (DFFE) invites motivated individuals to embark on a fulfilling internship journey with us. As stewards of South Africa's natural heritage, we're committed to fostering young talent and providing invaluable hands-on experience in forestry, fisheries, and environmental management.

Interns will immerse themselves in a dynamic, collaborative environment, working alongside seasoned professionals. Guided by mentors, you'll play an integral role in meaningful projects aimed at preserving biodiversity, promoting sustainable resource utilization, and mitigating environmental impacts.

Responsibilities

- Conducting research, gathering data, and analyzing findings on forestry, fisheries, and environmental matters.
- Assisting in implementing conservation and management plans for protected areas and marine ecosystems.
- Participating in fieldwork such as habitat assessments, biodiversity surveys, and monitoring activities.
- Supporting the development and execution of community engagement and environmental education initiatives.
- Contributing to policy formulation and strategic planning processes within the department.
- Collaborating with cross-functional teams to tackle environmental challenges and champion sustainable practices.
- Providing administrative support, including meeting coordination, report preparation, and project documentation management.

Qualifications

- Enrolled in or recently graduated from a relevant undergraduate or postgraduate program in environmental science, forestry, fisheries, ecology, or a related field.
- Strong academic background and genuine interest in environmental conservation and resource management.
- Excellent communication and interpersonal skills, with a knack for teamwork.
- Demonstrated initiative, creativity, and problem-solving prowess.
- Proficiency in Microsoft Office suite; experience with GIS software is a plus.
- Willingness to travel and work in diverse South African locations.

Job Benefits

- Hands-On Experience: Gain practical, real-world experience in environmental conservation and resource management through active
